### Most amazing smell IN THE WORLD!

This is hands down the most amazing smell in the world! Not only does it smell amazing, it feels amazing as well. My skin was so soft and hydrated yet there was no slippery residue on my bathtub. This is my fav for sure!

### Best Natural bombs!

Love these fizzy bombs and the little gifts inside. We have an adult autistic son who LOVES baths and has been using the Da bomb fizzy bombs since they came out! They smell wonderful, never stain the tub, and you get the little gift inside each one! All the Da bombs are awesome, but the earth bomb toys are his favorite!

Just placed my first order and I am so glad I did! This company clearly cares about their products as everything was packaged with immense care to ensure nothing was damaged in transit. Everything looks amazing and I cannot wait to try them!
